

PRODUCT OVERVIEW

This smartly designed electronic signature capture system comes complete with a 5.7 inch screen, full-color TFT VGA (640 x 480) LCD that records and displays "electronic ink" under the pen tip for a natural signature. Bundled secure software APIs provide for interactive text, graphics, and pen-tap hotspots and checkboxes which enable users to navigate screens, read agreements, and select preferred options before signing.

Specifications

General

- Device Type: Stylus, signature terminal
- Width: 7.2 in
- Depth: 0.6 in
- Height: 6.6 in

Input Device

- Connectivity Technology: Wired
- Interface: Serial, USB
- Movement Detection Technology: Electromagnetic
- Movement Resolution: 410 ppi
- Pressure Levels: 1024
- Active Area: 4.6 in x 3.4 in
- Features: Pressure sensitive pen, backlighting

Display

- Type: LCD display
- Diagonal Size: 5.7"
- Native Resolution: 640 x 480
- Image Contrast Ratio: 300:1

Expansion / Connectivity

- Interfaces: USB | Serial - RS-232

Software / System Requirements

Software Included: Drivers & Utilities, SigPlus, SigID, SigAnalyze, SigCompare, SignMeIn, SigPlus Adjust, SigTool Imager, Adobe Acrobat Plug-ins, Microsoft Office Plug-ins (Word and Excel), Demo OCX Test Utility

Manufacturer Warranty

Service & Support: 3 years warranty
